

NET SCRIPT

Bayarea Emergency Amateur Radio Service (BEARS)

EMERGENCY NET

The script below will be used to open and close amateur radio nets. A standard script ensures the net will be run in a similar format each time it operates, regardless of who is acting as NCS.

OPENING:

CQ CQ CQ

This is [call sign], net control for the Bayarea Emergency Amateur Radio Service Emergency Net. This is a directed emergency net for hospitals and medical facilities from all of the Tampa Bay area. Please transmit your call sign and facility's name when requested by the Net Control. Your facility's name will be used to identify your station.

Any hospitals or medical facilities, please call now.

Calling all stations please report your facility's current status and current bed count. Please report any status changes during this net.

CLOSING:

I would like to thank all stations that checked in. This is [call] securing the Bayarea Emergency Amateur Radio Service Emergency Net at [date and time] returning this frequency to regular amateur radio use.
